### **FLAVOURS & INGREDIENTS**

# 

Ingredient innovation combines proven nutritional benefits of Danish sour cherry from AsirosNordic with Taiyo's Sunfiber®. There can be no doubt that the pandemic has accelerated an already growing awareness of the importance of maintaining good health, as consumers look for food and drinks that support general well-being and immunity. Market analyst "Packaged Facts" reveals that 36 per cent of consumers are eating more foods that support their immune system as an impact of coronavirus. And those seeking out functional beverages, and willing to pay more for them ...

### FILLING & PACKAGING

# 

SIG presents its next generation filling technology — a technical masterpiece that's packed with advanced innovation to optimally equip the food and beverage industry to meet today's requirements, while at the same time offering all the capabilities to meet future challenges. SIG NEO, making its debut with the innovative combivita family-size pack, is the centrepiece of SIG's next generation platform and the world's fastest filling machine for family-size carton packs with up to 18,000 packs per hour. SIG NEO has best-in-class sterility rates and reduced consumption of resources — all adding to improved total cost of ownership and a 25 % lower carbon footprint compared to SIG's current generation filling machines for family-size carton packs …

Anuga FoodTec 2022: Sustainable packaging:							
Packaging industry demonstrates the next steps towards sustainability	 		 	 	 	 	14

The current trend in the packaging industry is clearly visible at Anuga FoodTec 2022: Sustainable packaging. The food and beverage industry is relying more and more on regrowing raw materials, recyclable materials and is increasingly replacing the conventional packaging concepts with other more contemporary ones. At the international supplier fair for the food and beverage industry from 26 to 29 April 2022 in Cologne, the visitors will find out how the packaging manufacturers and packaging machine builders are achieving the shift towards more sustainability and which challenges have to be overcome in the process. This important and future-looking theme is also competently addressed in the event and congress programme ...

### **HOSES**

### 

The OeTTINGER brewery also relies on hose solutions from Continental and has enjoyed longstanding success on international markets as a "global brand made in Germany". The Oettingen, Gotha, Mönchengladbach and Braunschweig brewing plants produce around 40 specialty beers and mixed beers as well as soft drinks – for the domestic market and worldwide export. The origins of the OeTTINGER brewery date back to 1731. Over the past 60 years, the Kollmar owner family has developed the company from a small village brewery in the Donau-Ries region to one of Germany's largest beer brands measured in terms of output and ...

### **RAW MATERIALS**

How the pandemic has s	aped the future of gl	fruit production in 2022 2
------------------------	-----------------------	----------------------------

Global fruit production has not only persevered in the face of a worldwide health crisis, but it has also continued to adapt in response to the evolving landscape. A fast-paced industry already familiar with navigating unpredictable conditions and forecasting market demand, the agricultural sector never slowed down, even in the worst times of the pandemic. However, that's not to say the journey was without any roadblocks: COVID-19 brought a wave of challenges with everything from labour to logistics ...
