Another smaller orange crop in Brazil: 2021-2022 forecast 186

In May 27th the 2021-2022 orange crop forecast for the São Paulo and West-Southwest Minas Gerais citrus belt, was released by Fundecitrus, in cooperation with Markestrat, FEA-RP/USP and FCAV/Unesp. It is the seventh year of this project that made transparency of fruit production available to participants all over the world. During the presentation of data, around 500 participants followed live via YouTube, from around 30 countries. The amount expected is of 294.17 million boxes (40.8 kg or 90 lb). Total orange production includes: 51.37 million boxes of the ...

Nongfu Spring in China trusts Sidel’s dry preform sterilisation to enhance its aseptic production flexibility 194

Nongfu Spring’s latest additions to its beverage portfolio required a hyper-flexible and safe aseptic solution, able to process high- and low-acid, still and carbonated products in PET, while enabling impactful bottle designs. With four decades of supporting sensitive beverage producers worldwide, Sidel recently engineered and installed a complete aseptic packaging line, integrating the Versatile Aseptic Combi Predis™. The line helped the leading Chinese beverage player launch a breakthrough in the domestic market: sparkling Ready-to-Drink (RTD) products, aseptically bottled in PET ...

LABELLING

Over two decades of good cooperation: Ferdl-Most still relies on GERNEP 198

The “Mostviertel” region in Western Lower Austria is characterized by its stunning nature and is known for its fertile ground for all kinds of fruits. Hence, it is not surprising that several farmers, winemakers, and fruit processing companies have settled there. The beverage producer Ferdl-Most Litzellachner OG is located in the middle of the Mostviertel region. The name of the company is, as the region itself, characterized by a sense of tradition. Since the 16th century, the square-shaped farmhouse is owned by the Litzellachners family and since seven generations all male descendants are named Ferdinand. This explains the company name Ferdl as it is the Austrian nickname for Ferdinand ...

PURO: A scale of the digital age 200

In times of Industry 4.0, customers expect more than just reliable weighing technology: the entire package must be right – not just the product alone, but the complete product cycle is important: from the ordering process to the service case, Minebea Intec and its partners are there to support the customer. With Puro, the customer also receives the strong quality of a leading supplier at a fair price. With Puro® ...

HORTICULTURE

Cherry trees, Arrigoni’s solutions against cracking and pests 202

Spring rains have a decisive influence on the quality of fruits, especially when it comes to delicate cherry cultivars. Rainwater can in fact interrupt the flowering process, reduce quality and, in severe cases, start fruit cracking. The rupture of the drupa, in fact, makes the fruit no longer marketable. Another minor damage, caused by rainfall, is that of excessive humidity, which can encourage the development of dangerous fungal diseases, thus requiring the use of plant protection products. Arrigoni, with solutions such as ...
